Dear businessman!

Nowadays corruption affects every aspect of human life and every sector of the economy. All forms of corruption represent a great danger to business activities. Corruption is closely linked to poverty; it generates social inequality and deprives society of a stable future-oriented development.

Corruption sets ‘‘the rules of the game’’ for the whole country, but they do not comply with business ethics. If we choose these rules as the only way to solve problems today, we will deny in future our right to choose and corruption will become the only solution!

If we are engaged in a corruption scheme once, we will constantly face the consequences of our own mistakes.

Without making any changes the situation will not improve. Each time we give a bribe, bribe taker’s ‘‘hunger’’ will increase. Next time we will need to give considerably more and it will not be our choice anymore.

If we make our own decisions, asses risks and responsibilities, our decisions can change the future. That is why the fight against corruption starts with you and it starts now!

You are the ones who make decisions; you are a part of the great, united country! You are a part of a country where there is no place for corruptible decisions, corruptible officials and corruptible public administration.

This is the result of your choice.

If your present choice is future stability and prosperity as well as fight against the falsity and injustice, report corruption cases to Corruption Prevention and Combating Bureau (KNAB) as soon as you face them at 104 Brīvības Str., block 2, Riga, LV-1001, Latvia, call +371 67356161 or +371 80002070 (Free Hotline), or email to knab@knab.gov.lv.

KNAB guarantees anonymity and protection against corruption.

Respectfully,
Director
